This work has been researched with academic rigour, and draws on unpublished papers from archives across Africa and Europe. In a book that has a twenty-page bibliography alone, for a war we barely know, we learn how competing armies could pass each other the dense bush.

A collection of the best contributions and reports from the Telegraph focus. Forged from a partnership between a university press and a library, Project MUSE is a trusted part of the academic and scholarly community it serves. The statistics make for horrible reading.

Faced with threats from African nature the Germans proved, as usual, to be splendid. The comparison is an interesting and telling one.
