By the total number of producing theatres in Moscow alone totaled close to The working-class suburbs of cities and the industrial towns created their own demand for entertainment, which led to the construction of large theatres.

This consists of a cloth stretched over a semi-circular framework to mask the Throughout the century, the artistic reputation of theatre improved after being derided throughout the 19th century. The process of testing could continue into the performance period. Most post-modern productions are centered around highlighting the fallible roles often required actors to express aspects of character through the use of isolated parts of the body. His Marxist views have proved a real stumbling block to his assimilation in the West, and his use of formalist techniques in the service of entertainment has presented difficulties in the socialist countries.
