This Cold House

of Congress Cataloging-in-Publication Data Smith, Colin, – This cold house: the simple science of energy efficiency / Colin Smith. p. cm. Includes index.

Question Sheet: Cold House, Hot House, Green House | Science News for Students

It can be your school or home, a friend's house, a local library, or some other building. How would you test this building's energy efficiency.

To heat and cool your house efficiently, it is important to know how heat keep your body cool is important in understanding cooling strategies for your home.

The Score reflects the energy efficiency of a home based on the home's structure Cool roofs use highly reflective materials to reflect more light and absorb less.

National Centre for the Public Awareness of Science, Australian National University If you own your house, the path is well trodden and fairly simple. Curtains and pelmets are virtually mandatory in cold climates. But as with all energy efficiency upgrades there is more to it than the energy savings.
