The chapter argues that in order to accommodate many typical agent-centered options and to resolve the paradox of supererogation, we should accept that non-moral reasons can, and sometimes do, prevent moral reasons, even those with considerable moral requiring strength, from generating moral requirements. And it is argued that what is most problematic about act-utilitarianism is its implication that agents are sometimes required to act in ways that they lack decisive reason to act. Whathasbeenshownandwhatremainstobeshown.Portmore'sjourneytotheheart Portmore's journey to the heart of consequentialism begins with act-utilitarianism. Ambitious theorizing of this scale and consequence is a rare treat in the contemporary landscape, so Portmore's thorough development of a comprehensive moral theory will serve as a model for much work to come.
