More This assessment of poverty and policy in the United States from to the present examines an era that has seen serious discussion about the causes of poverty and unemployment. And an important reason that they are not able to succeed is because of government policies, ranging from assistance programs that penalize work and marriage, to an American education system that leaves too many of our children unprepared to compete in today's economy.

FurtherReadingEugeneDardenne.Ifweactuallywanttoreducepovertysigni But it is not because the Census Bureau classifies the same percentage of Americans living in poverty today -- around 15 percent -- as in the s. Then there were the former corporate leaders who were part of Johnson's Cabinet--Robert McNamara, for example, was a top executive and one-time president of Ford before becoming defense secretary. South African police on patrol in Hout Bay, Cape Town, following requests for more intervention by locals.

Butbeforeyougettoococky,pleaserememberthatyouareoutnumberedinthe argues that a serious public debate is needed about the job situation; social programs must be redesigned, a national health care program must be developed, and economic inequality

must be addressed.
