His academic credentials are available at the link to his web page and they are reviewed in this book as a backdrop to how he came to the field of consciousness studies. Some questions immediately emerge:

AmazonRestaurantsFooddeliveryfromlocalrestaurants. Along the way the book provides the reader with interesting snippets about the life of a scientist working at the forefronts. As he straightforwardly admits, only time will tell, and he exuberantly hopes that time will come in his lifetime. An excellent discussion of free will, however, and that's a difficult topic. may take some work, but this book is a brief syllabus on how to get up to speed in this important area and greatly extend your knowledge of how the brain works. He briefly summarizes achromatopsia and prosopagnosia or face-blindness.
